Subject: RE: Discussion w/ BEAD Regarding Mitigation Path for the IDs
Attachments: PRD Neonic ID Mitigation Changes Table_3-16-21.docx

Attached is an outline of PRD's current plans and considerations for addressing comments and revising mitigation. It's still a little bit rough, but please direct your attention to the imidacloprid portion at the beginning as it is representative of the majority of the changes across all the ai's. In addition, we've highlighted in yellow topics for discussion between PRD and BEAD.

Ricardo

When: Thursday, March 18, 2021 11:00 AM-12:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Hi Neonc BEAD Team,

As we all kind of heard during the PRP discussion, the next steps forward are somewhat restricted pending a discussion with upper management. With that being said, we have plans to discuss the neonicotinoid IDs with upper management in just a couple short weeks, and we'd really like to sit down with you all and discuss our ideas on our plans for the mitigation.

Ricardo is currently looking over an outline that we put together, but we'll be forwarding that information to you all shortly for your review.

Thank you for your time,

Matt
